

Introduction of a new P2HD Wireless

This document is to introduce the new Wireless system for the AJ-HPX3100 series.

System overview

Following operation can be performed from various devices (PC, Mac, and tablet devices such as iPod, iPad etc.) via a web browser connected to a WLAN network (Ad-hoc connection).

[Key features]

- Text memo input and confirmation of camera status (recording format, remaining battery, etc.)
- Proxy playback, download proxy video and clip information (← Optional video encoder board AJ-YDX30 is required.)
- Metadata input and display

Preparation

Optional module installations and an online software activation is required to use the system

Wireless module AJ-WM30 → Install to AJ-HPX3100

Video encoder board AJ-YDX30 → Install to AJ-HPX3100

Key code

Upgrade software key AJ-SFU3100 → Activate key online

Setting up (overview)

The following shows the steps required to set up the system.

1. Install AJ-WM30 Wireless module into the AJ-HPX3100G/MC.
For installation guide: see AJ-SFU3100 user's guide, page-7 "[Click here to open](#)"
2. Ensure the firmware version of the AJ-HPX3100G/MC is 30.36 or higher.
For update procedures and firmware downloads: visit the support desk site "[Click here to open](#)"
3. Retrieve an activation code(*), which is required to enable the feature at http://panasonic.biz/sav/actkey_e and then activate the AJ-HPX3100G/MC with the code.
 - AJ-SFU3100 software key (25-digit code) is required to complete the activation.

4. Initialize the AJ-HPX3100G/MC with the "INITIALIZE" menu item. To open the menu item, press **THUMBNAIL > MENU > OPERATION > DEVICE SETUP > WLAN** then press the **MENU** button again.

Caution: The network setting in Step 6 cannot be performed if this initialization process is skipped.

5. Turn ON the wireless feature on the AJ-HPX3100G/MC in **MENU > SYSTEM SETTING > SYSTEM MODE**.

6. Set-up network between the AJ-HPX3100G/MC and a WLAN device(s) (PC, iPad, ipod, iPhone etc.)
For setting guide: see AJ-SFU3100 user's guide, page-11 "[Click here to open](#)"
